

2026 Collection Product Catalogue

StyleLimb.

Confidence
in Every Step

Transform your prosthetic leg into a canvas of self-expression with our premium, durable covers.

ABOUT STYLELIMB

Your limb, your style!

Every StyleLimb cover is built around you, for you. We combine industry-leading engineering with modern 3D printing in durable TPU, hand-finishing each piece in our studio for results that protect and express your style in equal measure.

The 2026 collection refines out two silhouettes, The Classic and The Signature, across multiple colours. Each one custom-measured, made to order, and shipped worldwide. Your limb, your style.

HOW IT WORKS

Engineered for real bodies.

01

Anthropometrically designed

Each cover is shaped to follow the natural contour of the limb. We model around real anatomy so the fit *feels intuitive, not imposed.*

02

Durable, flexible TPU

Manufactured using industrial-grade TPU, tough enough for daily wear, flexible enough to move with you. *3D-printed precision, built to last.*

03

Quick-release attachment

Securely attached to your prosthetic device with adjustable, quick-release straps. Easy on, easy off. *Stable when it matters.*

OUR COLLECTION

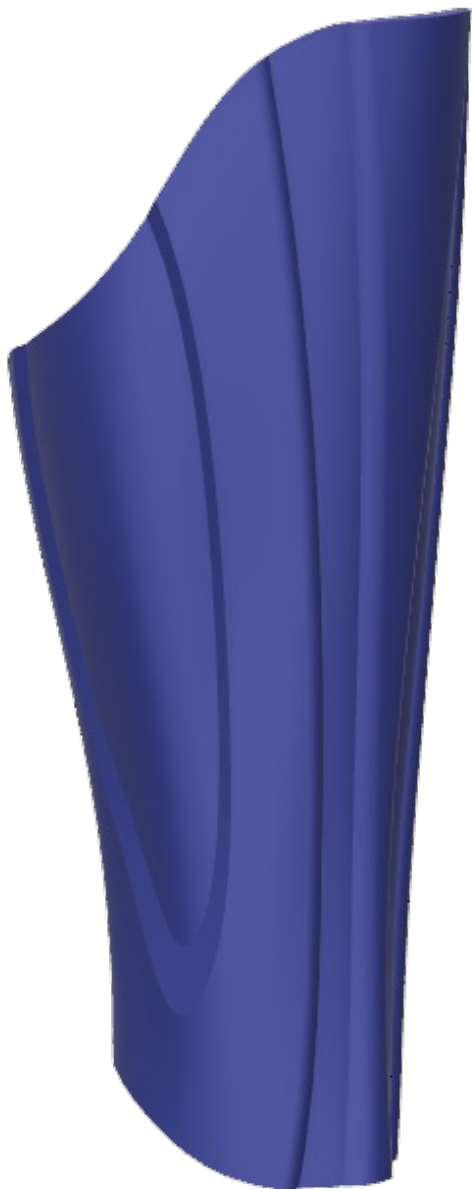

DESIGN 01

The Classic.

Tailored form. Quiet confidence.

A sculpted, smooth silhouette that traces the natural line of the limb. Precision-engineered for a perfect fit, hand-finished in our studio.

DESIGN 02

The Signature.

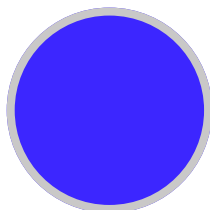

Bold geometry. Unmistakable.

A sleek, ridged design for those who want their stride to make a statement. Same precision fit, sharper visual language.

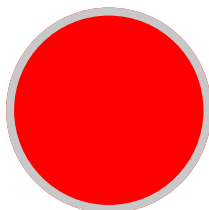

STANDARD COLOURS

Choose your colour.

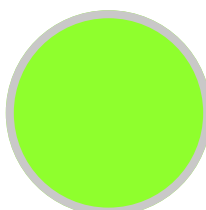

14 standard colours across both designs. More available on request.
